

October 7, 2020

Due to the continuing and evolving Covid-19 situation, the Campaign Regulations for the 93rd Oscars as they pertain to Phase 1 (the period prior to Nominations), have been amended as follows:

1. Special Accommodation For Films Not Yet Available On The Academy Screening Room:
 - Due to the limited ability to hold in person theatrical screenings, if a film is not yet available on the Academy Screening Room, film companies may provide members a link to view the film with said link being available for no more than a 24 hour period.

2. Virtual Q&As (Live or Pre-recorded):
 - Film companies may send a link for a virtual Q&A so long as it is attached to a notice that the film is available to screen on the Academy Screening Room.
 - If the film is not yet available to screen on the Academy Screening Room, film companies may provide members a link to view the film and virtual Q&A with said link being available for no more than a 24 hour period.

3. Virtual receptions are not permitted.

4. Scene at the Academy:
 - Scene at the Academy will currently replace the Q&As typically held post Membership Screenings. They will be governed under Rule 3 of the Campaign Regulations and may be referenced in FYC mailings to members prior to Nominations only.

*These amendments pertain to all categories with the exception of International Feature Film, as that award is not branch specific and has its own viewing and voting procedures.

All amendments referenced above are subject to change at any time.
