

August 11, 2020

Due to the continuing and evolving Covid-19 situation, the Campaign Regulations for the 93<sup>rd</sup> Oscars as they pertain to Phase 1 (the period prior to Nominations), have been amended as follows:

1. Special Accommodation For Films Not Yet Available On The Academy Screening Room:
  - Due to the limited ability to hold in person theatrical screenings, if a film is not yet available on the Academy Screening Room, film companies may provide members a link to view the film with said link being available for no more than a 24 hour period.
  
2. Virtual Live Q&As:
  - Film companies may send a link for a virtual live Q&A so long as it is attached to a notice that the film is available to screen on the Academy Screening Room.
  - If the film is not yet available to screen on the Academy Screening Room, film companies may provide members a link to view the film; however, such link may only be available for the period immediately preceding the virtual live Q&A.
  
3. Virtual receptions are not permitted.
  
4. Scene at the Academy:
  - Scene at the Academy will currently replace the Q&As typically held post Membership Screenings. They will be governed under Rule 3 of the Campaign Regulations and may be referenced in FYC mailings to members prior to Nominations only.

\*These amendments pertain to all categories with the exception of International Feature Film, as that award is not branch specific and has its own viewing and voting procedures.

**All amendments referenced above are subject to change at any time.**
