Artist Statement

My explorations were inspired by the ideas of harmony and unity. Although it's been a tough year for us all to be together, film has helped entertain, distract, console and inspire. The Oscars are a celebration of this art form, casting the spotlight upon the diverse humans that bring these stories to life. My visuals are a celebration of these different walks of life. I've explored how we can visualize different elements coming together to create a unified form within and around the form of the iconic statue.
